

PROSPECTUS

**INTEGRITY
SERVICE
EXCELLENCE**

2024 - 2025

Vision

To be a University of Excellence in the provision of appropriate advanced education and entrepreneurship indispensable for development.

Mission

To provide appropriate advanced education and entrepreneurship skills through effective teaching, research, and consultancy.

Values

Chalimbana University established a set of values as a foundation to the establishment of the university.

Integrity: Integrity is generally a personal choice to uphold oneself to consistent moral and ethical standards. The institution will endeavor to uphold the virtue of integrity. The individual actions will be consistent with the framework of principles.

Service: The focus is community service. The university community shall work as a team to benefit the public. It is expected that the students from Chalimbana university will carry out community service during and after their training. In the Strategic Plan, the institution has included the idea of evening classes for adult literacy programmed. The nearby school will also be used for demonstrations at no cost. Micro-teaching is a course whereby every student will be expected to practice or participate in this area of community service.

Excellence: Chalimbana University hopes to strive to shape and grow Excellence till achieved.

FOREWORD

It is with great pleasure and immense pride that I extend a warm welcome to you all to the 2023-2024 academic year at Chalimbana University. As the Vice Chancellor of this esteemed institution, I am deeply honored to be a part of your academic journey and to introduce you to the vast opportunities that await you during your time at our university. Chalimbana University has always stood for excellence, innovation, and a commitment to the betterment of society through education. We have a rich history of nurturing talent, fostering creativity, and producing graduates who go on to become leaders and change-makers in various fields. Our mission remains unwavering: to provide a world-class education that equips our students with the knowledge, skills, and values necessary to excel in an ever-evolving global landscape.

In the years ahead, you will have the privilege of engaging with a dedicated faculty who are not only experts in their respective fields but also passionate about teaching and mentoring. They will inspire and challenge you to think critically, to explore new horizons, and to push the boundaries of your potential. You will find that our campus is a vibrant hub of intellectual discourse, artistic expression, and cultural diversity, where your personal growth is as important as your academic achievements. At Chalimbana University, we encourage you to dream big, to set ambitious goals, and to embrace opportunities for personal and professional development. Whether it's through research, community engagement, internships, or extracurricular activities, we are committed to providing you with a holistic education that goes beyond the confines of the classroom. We firmly believe that your time here should be transformative, equipping you not only with knowledge but also with the character and values that will guide you throughout your life.

Your journey at Chalimbana will be marked by challenges and successes, both big and small. It will be a journey of self-discovery, where you will build lasting friendships, create memories, and face moments of both triumph and adversity. You will be a part of a supportive and diverse community that believes in your potential, and together, we will empower you to make your mark on the world. As we look to the future, our commitment to providing an inclusive, accessible, and high-quality education remains steadfast. We are continuously enhancing our infrastructure, facilities, and academic programs to ensure that you have the resources you need to thrive. I encourage you to seize every opportunity, to explore your interests, and to embrace the transformative power of education. Your time at Chalimbana is not just about acquiring knowledge; it is about becoming a responsible, compassionate, and informed global citizen who can contribute to the betterment of our society and the world. As you embark on this exciting academic journey, I offer my best wishes and support to each and every one of you. Your success is our success, and your achievements will be a testament to the values and vision of Chalimbana University. Welcome to Chalimbana University, where we believe in "Education for a Better Tomorrow."

SCHOOL OF MATHEMATICS AND SCIENCE EDUCATION

About the school

The School of Mathematics and Science Education shall endeavor to train Mathematics and Science teachers to meet the demand at primary, junior and senior secondary school levels. Mathematics and science teachers are in high demand due to a severe national shortage of qualified teachers within these fields. The school has enough skilled professional personnel in various fields such as Agriculture and other related fields. To enable quality of education delivery the school has in place laboratory technologists to provide technical support in industry so as to improve efficiency, competence and give desired results.

What we offer

The school of Mathematics and Science is one of the big schools in the university. Mathematics and science are precision subjects used regardless of the areas of specialisation in search for a clear understanding of the physical world. The subjects are recognized as the foundation of technology and development without which a nation can never become prosperous and economically independent. These subjects are considered to be the main stem of success from individual, national and global level.

Currently the school has five departments, namely: Department of Mathematics, Department of Biological Sciences, Department of Chemistry, Department of Physics and Department of Agriculture Science. The programs offered under these departments are Bachelor of Science with Education and Bachelor of Agriculture Science with Education. The school further collaborates with School of Education in offering content in mathematics and integrated science for primary school trainee teachers. At the moment the school has no postgraduate program running. The school has plans of offering other undergraduate programs of study independent of education courses and the following are some of the proposed programs

Below are the programs and course offered in details.

SCHOOL OF TECHNOLOGY, SCIENCE AND MATHEMATICS

BACHELOR OF SCIENCE WITH EDUCATION

SUBJECT COMBINATION

Biology / Chemistry

Year	Course Code	Course Name	Full/Half Course	Total No of Courses

School of Vocational and Practical Skills Studies

About the School

The School of Vocational and Practical Skills Studies shall be headed by a Dean. The government has prioritized Vocational and Practical skills subjects in the country as outlined in the Seventh National Development Plan (2017). These developments required that training institutions in Zambia offer Design and Technology, Home Economics and Hospitality and Tourism Management in their curricula. This paradigm shift has been necessitated by the change of philosophy of the subject as envisioned by government through the national policy on education (MOE, 1996) and the Vision 2030 in which the country strives to attain middle-income status. Recently, teachers of design and technology were trained in Malawi, hence there was a need to localize training in this field. Therefore, it was important to create the school to teach and promote practical, survival and entrepreneurial skills

What we offer

The school offers practical courses which mostly includes hands on activities in all its programmes of study. Apart from offering academic programmes, the school also offers community services of different forms to communities surrounding the university. By its nature, the school also better up student's living standards by providing solutions to challenges faced in the institution. In all the programmes, students have an opportunity of making items and are accorded an opportunity of finding a market and selling the items made. Through this approach, students learn entrepreneurship practically. Generally, apart from providing academic knowledge, the school equips students with practical skills that creates job opportunities for the youths. The aim of this approach is to pursue growth that transforms the livelihood of the people for economic transformation for improved livelihoods.

SCHOOL OF HUMANITIES AND SOCIAL SCIENCES

About the School

The School of Humanities and Social Sciences is one of the eight schools of Chalimbana University. The school trains teachers, advocates of change in society and security personnel who contribute positively to national development. In addition, the school facilitates analytical and critical thinking skills that are responsive to the study of humans and human behaviour and society in the past and present times. The school consists of five departments namely, Literature and Languages, Social Sciences, Gender Studies, Psychology and Policing and Security Studies. In line with the Seventh National Development plan (7NDP) and the Curriculum Framework of 2013, the school meets the needs of the different individuals in society through the programmes that are packaged for specific needs. In addition, the Government of the Republic of Zambia has opened doors to research, innovation and technology by establishing the Ministries of Green Economy and Small and Medium Enterprises. In line with this, the school continues to provide training programmes to equip students with skills to be able to set up enterprises for themselves in order to be self-reliant and to be productive members of society.

What we offer

The school offers a number of courses at Undergraduate and Postgraduate levels aimed at helping people with social problems, understanding of human behaviour, advocating for change in society and understanding the environment in which individuals live in society as a whole. Courses on offer include Bachelor of Arts in Gender Studies, Bachelor of Arts in Psychology and Bachelor of Arts in Policing and Security Studies. In addition, the school offers the following programmes at postgraduate level: Master of Arts in Gender Studies, Master of Arts in Linguistic Science, Master of Arts in Literature, Master of Arts in Applied Linguistics and Master of Arts in Religious Studies.

Below are the programmes and courses offered in detail;

SCHOOL OF LEADERSHIP AND BUSINESS MANAGEMENT

About the School

The School of Leadership and Business Management is one of the seven (07) schools of Chalimbana University. It has continued to be among the fastest growing Schools in the University with four (03) academic departments namely; Accounting and Finance, Business and Entrepreneurship, Operations and Supply Chain Management.

The eighth National Development Plan (8NDP) in the vision 2030 observes that although Zambia is well within the Vision 2030's objective of maintaining the unemployment rate below 10 percent, the country still lacks adequately skilled workers in business specialized fields, hence the need to invest in human capital development. In response to aforementioned need.

About
the
School

SCHOOL OF EARLY CHILDHOOD STUDIES

The School of Early Childhood Studies is one of the academic units of the University. The school trains teachers, caregivers and Early Childhood Development experts, and individuals working with children in related programmes. This is in line with the 8th National Development Plan that envisages a population of educated society by the year 2030 and beyond through Early Childhood Care, Development and Education. The teachers and caregivers trained offer modern stimulating education and care services to children thereby building a better educated and motivated adult society in later years. The School has two departments namely; Early Childhood Education and, Childcare and Development. Currently, the School has two (2) running programmes and two (2) that are still underdevelopment.

What we offer

BACHELOR OF EARLY CHILDHOOD STUDIES
BACHELOR OF SCIENCE IN CHILDCARE AND DEVELOPMENT

SCHOOL OF SPORTS, MUSIC AND FINE ARTS

About the School

The School of Sports, Music and Fine Arts as provided under the Chalimbana University Structure has three departments namely; Department of Music, Department of Physical Education and Sports, Department of Performing Arts and Department of Fine Arts. Government has prioritized Sports, Music, Performing and Fine Arts in the country for the development of a healthy nation as provided for in the Seventh National Development Plan (2017).

The Zambia Education Curriculum Framework (ZECF, 2013) emphasizes on the two- tier system of academic and vocational pathways. This development requires that teacher training institutions in Zambia offer Sports, Music, Performing and Fine Arts in their curricula as stand-alone programmes. Therefore, it was important to create a separate school to teach and promote Sports, Music, Performing and Fine Arts for social and economic development. This responsibility is covered in the University's Strategic Plan of 2018 – 2022.

DEPARTMENT OF MUSIC

DIRECTORATE OF POSTGRADUATE, RESEARCH AND INNOVATIONS

About the School

The Directorate of Research, Post Graduate Studies and Innovation envisions to be a leading, pertinent and innovative unit with a mission of “providing appropriate advanced education and entrepreneurship skills through effective teaching and learning, research and consultancy”. The Directorates' core business is to produce excellence in graduates and researchers that are accountable, pertinent and inventive capable of becoming global citizens who can as well meet developing needs of the country.

The Directorate is guided by the Higher Education Act (Act 3 of 2013 amended in 2021) which identifies research as one of the core functions of any University.

- The articulation of this guide allows us to stress:
- The significance of both basic and applied research at the University;
- The prominence of knowledge and development of home-grown, domestic and regional collaborative research; and,
- The necessity to mentor upcoming researchers by underscoring research and innovation at Postgraduate level.

The directorate supports three strategic areas of interest namely making Chalimbana University more visible through excellence in research and enhancing our community service. There are seven (7) post graduate Masters programmes in the following areas of specialization; Master's in Education Leadership and Management, Music Education, Gender Studies, Applied Linguistics, Early Childhood Education, Business Administration (with six specializations) and Primary Education. PhD programmes are generic that is, they are in several fields of specialization by submitting a write up (intent).

DIRECTORATE OF DISTANCE EDUCATION

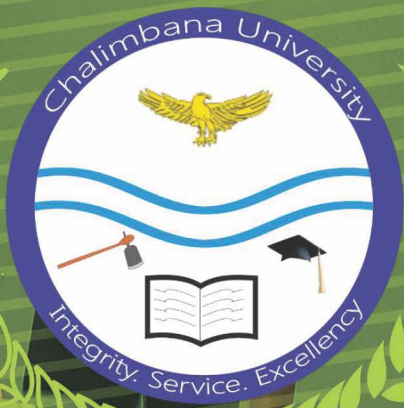

Chalimbana University offer learning services in two modes;
under full time as well as Open and Distance Education
Learning (ODeL).

Under this mode of learning, the university offers programs at
both Undergraduate and postgraduate studies.

Enrolment for ODeL takes place in April and December every
year.

Application forms for admission are available at Customer Care
Office as well as through WhatsApp on any of the numbers
indicated below, at a fee of k150 and can also be downloaded
on the university website

260776226737, 260970528404, 260977485465,
260977276293
